**NEXT MEMBER'S  
MEETING**  
**Thursday 26<sup>th</sup> May,**  
**2016 at 8pm Cromer**  
**Community Centre,**  
**Fisher Road North,**  
**Cromer.**

**NEXT COMMITTEE  
MEETING**  
Thursday 2<sup>nd</sup> June  
2016 at the DYRSL  
7.30pm.

**SUPPER ROSTER.** This month we will be hosting **AUSTRALIA'S BIGGEST MORNING TEA.** Please give a donation to this very worthy cause. **Verity Shervington** has volunteered to do sandwiches and **Sheree Howard** will do cake. A big thank you to last month's volunteers and also many thanks to other members who contributed to the supper table. There are still vacancies for sandwiches in **June, August and September**, please help out.

**GUEST SPEAKER.** This month we have **Garrie Bromley** who will be giving a talk/demonstration on preparing your plants for shows. As you all know Garrie is a very experienced show judge and knows all the things that a judge looks for in a plant. Don't miss this one if you are benching at our shows.

### **PRESIDENT'S REPORT:**

With show season beginning for the year, I would like to remind you all to start staking and grooming plants for shows. Our first show at Dee Why Grand is coming up (16th-18th June), and help setting up as usual would be greatly appreciated.

Recently, Angie and I went for our first meeting at DY RSL for Orchids By The Sea, and preparations are well underway. This year will be our 10th year of OBTS, and I am looking forward to celebrating this exciting milestone with you all.

## **WINTER SHOW @The Grand 16<sup>th</sup>,17<sup>th</sup>,18<sup>th</sup> June, 2016.**

Please note that set up and benching is on Wednesday 15th from 5pm with Judging at 7pm. All sale plants must be clean, well presented, free from disease and insects and well established in the pot. Plants not up to standard will be withdrawn from sale. Help over the three days will be appreciated and we need volunteers to do security on Wednesday, Thursday and Friday nights till midnight.

**LIBRARY.** The library still operates so please make use of this facility as we have some very good books. We will be culling some books in the future which will be available to members.

**SALES TABLE.** Honest Gary has pots in all sizes and also plant labels. Please bring in your excess plants for sale.

**Reminder** - All members who bench plants at monthly meetings will be eligible to receive a raffle ticket and be in the draw to win a prize. The tickets will be on the table in front of the library. Don't forget to take a separate ticket for the badge draw when you sign in.

**Bulletin Articles** – The Ed is always on the lookout for news articles so if you have anything to buy, sell or tell please contact Tinka.

## DIARY DATES 2016

May 26<sup>th</sup> Members Meeting  
June 9 – 12 North Shore OS Winter Show at  
St. Ives Shopping Centre  
**June 16<sup>th</sup> – 18<sup>th</sup> Winter Show Dee Why Grand**  
June 23<sup>rd</sup> Members Meeting  
**June 25 -26 Mingara Orchid Fair & Show**  
July 14-16 North Shore OS Show, Gordon  
Shopping Centre  
July 28<sup>th</sup> Member's Meeting  
**August 5-7 Orchids by the Sea**  
August 12 - 14 National Orchid Extravaganza,  
Dural  
**August 19-21 St. Ives Orchid Fair**  
August 25<sup>th</sup> Member's Meeting  
September 10-11 ANOS Warringah Group  
Spring Show, Forestville Memorial Hall.  
**September 15-17 Spring Show Dee Why**  
September 22<sup>nd</sup> Members Meeting & AGM  
October 27<sup>th</sup> Members Meeting  
**November 13th AUCTION**  
November 24th Members Meeting  
December 4<sup>th</sup> Christmas Party  
December 15<sup>th</sup> Members Meeting

**THANK YOU** to the members who turned up at 7pm to help put out tables at the last meeting.

**THANK YOU** to Ivan Moore who brought in containers of molasses to the last meeting for members to try on their plants. The instructions for use were in the last Bulletin in Ken Russell's notes.

## Show Marshal Report April 2016 Hybrid of the Month : Dendrobium Edric

**Dendrobium  
wassellii x  
Dendrobium  
linguiforme  
var. nugentii  
Grown by:  
Ralph Lumby**

This was a very attractive and well presented plant grown by Ralph. Both parents were known as

Dockrillia and all that group have been moved back to Dendrobium. Looking up the plant on Orchidwiz it was a named cross, Dendrobium Edric, with one photo and awarded in South Australia ACC/AOC 77.3 Points, 2008. The plant Ralph has grown has thick leaves and compact whereas the one in the picture had thin leaves. *D wassellii* Plants are found only in the McIlwraith Range on the Cape York Peninsula. They grow at the edge of Araucaria vine forests in areas with good light and strong air movement at about 1000 ft. (300 m). *D linguiforme* is Commonly epiphytic on tree trunks, Australia and New Caledonia. In Australia, distribution extends along the east coast from near Narooma in southeastern New South Wales northward to near Cooktown in Queensland. Although plants usually grow near the coast, they have been found as far as 155 mi. (250 km) inland near Coolah, New South Wales. The habitat is extremely varied. Plants may grow on rocks in full sun, in open forest, or on trees in the dense shade of rainforests. They grow from near sea level to at least 3600 ft. (0-1100 m). In

the more northerly (warmer) locations, they are usually found in the highlands. From Orchidwiz

**Specimen Plant of the Month and Specie Plant of the Month : "Coelogyne fimbriata var alba"** Lindl., Edwards's Bot. Reg. 11: t. 868 (1825).

**Grown by: Guy Cantor**

This was a beautifully grown plant by Guy well deserving the Specie and Specimen and an alba form. It is one you don't see too often and grown to perfection. These are a cool growers and easy to cultivate. It comes from Northeast India, northern Thailand, Laos, Cambodia, Vietnam, southwest China. In India, plants are found in the Khasia Hills and Manipur. In Thailand, plants are found in the northwest mountains of on Doi Inthanond and Doi Suthep. In Vietnam, plants have been found near Dalat, and they are said to be common from Finnom to Bao Lac. In China, plants grow on trees and rocks in forests at 1650-5750 ft. (500-1750 m) in the provinces of Yunnan, Tibet, Guangxi, Guangdong, and Jiangxi. from Orchidwiz. Coming from such a range there are many forms of this species and it is amazing how far spread some can be.

**Novice plant of the Month: Bulbophyllum (Bulb.) Elizabeth Ann 'Buckleberry'**

**Grown by: Michael & Sheree Howard**

This is a beautiful Bulbophyllum grown by the Howards. They are not hard to grow and when grown into a large plant can be quite attractive.

There are a number of bulbos with this type of flower. This one is a hybrid of [Bulb.] longissimum x [Bulb.] rothschildianum and both these species are common in collections also all cool growing. I have grown them in baskets and shallow dishes and have done ok. The tips of each flower are very

long and hard to see in the photo but you can see right to the bottom of picture. One specie comes from Thailand the other from northern India.

Ian Nelson

Show Marshal/Patron
