ISSUE 544 June 2016

PATRON

Ian Nelson

PRESIDENT

Dylan Morrissey

VICE PRESIDENTS

Cary Polis Angie Sulfaro

SECRETARY

Tinka Riddell tinkariddell@ yahoo.com.au 9940 0797

TREASURER

Jo Ann Payne

LIBRARIAN

Guy Cantor

COMMITTEE

Gary McDougall Joy Lumby Val Houley

ALL CORRESPONDENCE

TO The Secretary, MWOS Inc., 3 Kristine Place, Mona Vale. NSW. 2103.

NEXT MEMBER'S MEETING

Thursday 23rd May, 2016 at 8pm Cromer Community Centre, Fisher Road North, Cromer.

NEXT COMMITTEE MEETING

Thursday 7th July 2016 at the DYRSL 7.30pm.

MANLY WARRINGAH ORCHID SOCIETY INC.

www.orchidsociety.com.au

BULLETIN

MEMBERSHIP FEES ARE DUE 1ST JULY 2016.

Fees will increase to \$15 for single membership and to \$18 for family membership.

For Members who receive their Bulletin via Australia Post there will be a surcharge of \$10 per year to cover costs. Please notify Secretary if you wish to receive Bulletin via email.

You may pay by Direct Debit to Manly Warringah Orchid Society Account No. 00906498, BSB 062 155 and please leave your name for reference and please send your payment confirmation to The Secretary. Payments can also be made at the member's meeting.

SUPPER ROSTER. This month our volunteers are Dylan Morrissey for something sweet and Tinka will do sandwiches. Thank you to last month's volunteers and members who brought in something extra.

GUEST SPEAKER. This month we have **Bob Cowan** accompanied by his wife Chittima who operate the Sakdisri Orchid Nursery in Bankok. Bob's presentation will cover "Cultivating Orchids in Tropical areas (BKK) and some photos of "Cold growing Orchids" that we saw in Switzerland – species & hybrids that either would not be seen in Oz or seen only by people that would travel to cold countries.

WINTER SHOW @ THE DEE WHY GRAND – SET UP IS THIS WEDNESDAY 15TH FROM 5PM TO 7PM.

PRESIDENT'S REPORT:

Hope everyone is safe and well after the recent storms, and more importantly, no one lost any orchids!

I'd like to thank Garrie Bromley for the talk he gave at our last meeting showing us all how to groom, stake and prepare plants for the upcoming shows. I'm sure it was particularly useful for some of our newer novice members. I expect to see this lesson put to good use at our Dee Why Grand show this week. Best of luck to everyone exhibiting, and a request for anyone with flowering plants for sale to bring them along to the show. Look forward to seeing you all soon,

LIBRARY. The library still operates so please make use of this facility as we have some very good books. We will be culling some books in the future which will be available to members.

SALES TABLE. Honest Gary has pots in all sizes and also plant labels. Please bring in your excess plants for sale.

Reminder - All members who bench plants at monthly meetings will be eligible to receive a raffle ticket and be in the draw to win a prize. The tickets will be on the table in front of the library. Don't forget to take a separate ticket for the badge draw when you sign in.

Bulletin Articles - The Ed is always on the lookout for news articles so if you have anything to buy, sell or tell please contact Tinka.

DIARY DATES 2016

Dylan

June 16th – 18th Winter Show Dee Why Grand June 23rd Members Meeting June 25 -26 Mingara Orchid Fair & Show July 14-16 North Shore OS Show, Gordon **Shopping Centre** July 28th Member's Meeting August 5-7 Orchids by the Sea

August 12 - 14 National Orchid Extravaganza. Dural

August 19-21 St. Ives Orchid Fair

August 25th Member's Meeting September 10-11 ANOS Warringah Group Spring Show, Forestville Memorial Hall. September 15-17 Spring Show Dee Why September 22nd Members Meeting & AGM October 27th Members Meeting **November 13th AUCTION** November 24th Members Meeting December 4th Christmas Party December 15th Members

Don't forget the Mingara Orchid Show & Fair is on 25th & 26th June. **Show Marshal Report For May 2016** Hybrid of the Month: Cattlianthe [Ctt.] (syn. Laeliocattleya or Lc.) Little Susie 'Joy' Grown by: G & A Cushway

This plant stood tall and looked great. There were also other nice ones benched. This is not a new

hybrid and was registered in 1959 by Armacostfe Royston Inc. California and was awarded. This clone, 1979, goes to show how some can still be up there and win. It has 6 species in its back

ground. Notice it has moved from Lc.to Ctt. due to Guarianthe (Gur.) bowringiana being renamed and Cattleya [C.] purpurata (syn. Laelia purpurata). To Gloria and Allan a great plant, well grown and with a good head of flowers.

Specimen Plant of the Month: "Paphiopedilum insigne" (Wall. ex Lindl.) Pfitzer, Jahrb. Wiss. Bot. 19: 159 (1888)

Grown by: **Nick Gill** This was a nicely grown plant by Nick. probably one of the hardiest

Paphiopedilum to grow. I have seen this grown to massive plants also grows well in the garden too it comes from Northeast India in the Khasia Hills of Meghalaya and the Sylhet region of Bangladesh. Plants usually grow at 3280-4920 ft. (1000-1500 m) in the light shade of shrubby vegetation. They often occur on dolomitic limestone outcrops over streams and rivers, often near waterfalls. Roots are normally embedded in soil and moss. From

Specie Plant of the Month: "Laelia anceps" 'Helen' x 'Tierra del Fuego' Lindl., Edwards's Bot. Reg. 21: t. 1751 (1835). Grown by: Nick Gill

This was quite a nice plant of this anceps and pictured below are the two parents Mexico, Guatemala, and Honduras. In Mexico, plants are found in the

mountains on the Gulf of Mexico side of the country in the states of Nuevo León, Tamaulipas, San Luis Potosí, Hidalgo, Querétaro, Puebla, Veracruz, Oaxaca, and Chiapas. They normally grow in warm oak forests with tropical deciduous trees at 3950-5250 ft. (1200-1600 m). The habitat is varied, however, and plants may grow somewhat higher or lower in cooler or hotter climates in both shady and sunny locations. The varied habitat indicates an adaptability that explains why plants are usually considered easy to cultivate. On the Pacific side of the mountains, plants are found in the state of Oaxaca and possibly in Guerrero and Jalisco as well. They are most often found in oak trees in humid forests at 5250-5900 ft. (1600-1800 m), but they occasionally grow on rocks. This species is also reported in Guatemala and Honduras, but we found no information about habitat location and elevation in these countries. From Orchidwiz It is important to know how a species grows in its natural habitat and why varieties of that species can vary in their culture a little bit. Take note of the height they grow at as it all helps in their culture.

Laelia anceps" 'Helen' X Laelia anceps" 'Tierra del Fuego'

Novice plant of the Month: "Anoectochilus formosanus" Hayata, Icon. Pl. Formosan. 4: 101 (1914)

Grown by: M & S Howard

What an interesting orchid and the wav it was grown. The plant in itself is very attractive - a plant from Taiwan (Formosa) on shady forest

floors at moderate elevations. -From Orchidwiz Growing information is warm to hot conditions but is interesting the way they have it in the glass bowl. It is like some I saw growing this way at the World Orchid Conference in Singapore about 31/2 years ago in a display. To the Howards, a good effort.
